UNITED STATES' FIRST SET OF INTERROGATORIES AND  
FIRST REQUEST FOR PRODUCTION OF DOCUMENTS  
TO CLARKE'S INCINERATORS, INC.

Pursuant to Rules 26, 33, and 34 of the Federal Rules of Civil Procedure, Plaintiff, the  
United States of America, requests that Defendant Clarke's Incinerators, Inc. ("Clarke's

Incinerators”) (1) answer fully, in writing and under oath, each of the following interrogatories, and serve such answers on the undersigned counsel for the United States within forty-five days, as provided for in the First Case Management Order (“First CMO”) entered in the above-captioned action; and (2) produce the documents requested below, or in lieu thereof serve authentic copies of such documents on the undersigned counsel for the United States within forty-five days, as provided for in the First CMO.

### **CRITICAL INSTRUCTION TO CLARKE’S INCINERATORS**

This discovery request is directed to Clarke’s Incinerators. According to documents both in the public record and in the custody of U.S. EPA, Clarke’s Incinerators first was incorporated in 1967. However, it is the United States’ understanding, and allegation, that Clarke’s Incinerators did not start from “scratch” in 1967. Rather, Clarke’s Incinerators was the incorporated name of a business, or several businesses, that Thomas Clarke had started some years before. **Because the United States alleges that Clarke’s Incinerators is the successor to the liability of this or these previously unincorporated entities, the respondent to this request is obligated to provide answers to the questions set forth below -- to the extent of its knowledge -- for *and any possible predecessor business to Clarke’s Incinerators*.** While the United States understands that Clarke’s Incinerators may deny successor liability, the United States is entitled to seek discovery on this issue, and expects Clarke’s Incinerators to provide information on all possible predecessor businesses. **Note that the definition of “Clarke’s Incinerators” is very broad: it includes “each merged, consolidated, and acquired predecessor or successor (including sole proprietorships), parent, subsidiary, division, and affiliate, each past and present officer, director, employee, agent, servant, and representative of each such entity or individual, and each past and present attorney of each such entity or individual.”**

Additionally, because Clarke's Incinerators apparently continues to be incorporated to this day, Clarke's Incinerators must answer the questions set forth below for the entire period of its incorporation. Indeed, the "Applicable Time Frame" for this request is from January 1, 1955 to the present. Thus, to the extent that Clarke's Incinerators had successor businesses after the original incinerator(s) was(were) shut down in the 1970s, Clarke's Incinerators is obligated to answer the requests set forth below for those successor businesses as well.

To the extent that Clarke's Incinerators has any questions about the scope of these requests, counsel for Clarke's Incinerators is encouraged to contact counsel for the United States, who will be happy to clarify.

**FIRST AMENDED COMPLAINT**

Plaintiffs, The Dow Chemical Company, Ford Motor Company, GE Aircraft Engines, Morton International, Inc., PPG Industries, Inc., and Velsicol Chemical Corporation, through their undersigned counsel, hereby allege:

## **PRELIMINARY STATEMENT**

Plaintiffs' First Amended Complaint is filed pursuant to the leave granted Plaintiffs to add additional parties under paragraph 27 of the First Case Management Order of August 27, 1997 ("CMO"). By Order of June 3, 1997, the Court stayed the requirement of answering or otherwise responding to the original Complaint under Federal Rule of Civil Procedure 12. Paragraph 2 of the CMO of August 27th stayed the litigation altogether, including the requirement of answering or otherwise responding under Rule 12 to this First Amended Complaint, and directed all parties to participate in the Alternate Dispute Resolution ("ADR") process set forth in the CMO to attempt to settle disputed factual and legal issues at the Skinner Landfill Site. The new Defendants added in this First Amended Complaint are: City of Fairfield, Johnston Coca-Cola Bottling Group, Inc., Monsanto Company, Ralcorp Holdings, Inc., Sealy, Inc., United States Air Force and United States Information Agency.

## **INTRODUCTION**

1. This action, which seeks relief with regard to a former landfill known as the Skinner Landfill, is brought pursuant to §§ 107 and 113 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA"), 42 U.S.C. §§ 9607, 9613. The new Defendants added in this First Amended Complaint are City of Fairfield, Johnston Coca-Cola Bottling Group, Inc., Monsanto Company, Ralcorp Holdings, Inc., Sealy, Inc., United States Air Force, and the United States Information Agency.

2. The Skinner Landfill Site (the "Site") is located in West Chester, an unincorporated area in Section 22 of Union Township, Butler County, Ohio. The Site, which occupies approximately 78 acres off the Cincinnati-Dayton Road, was operated from approximately 1934 to 1990 for the landfilling of a wide variety of materials. Materials deposited at the Site include demolition debris,

household and other municipal refuse, and a wide variety of chemical wastes, including paint wastes, ink wastes, creosote, pesticides, and other chemical wastes.

3. The United States Environmental Protection Agency ("EPA") placed the Site on the National Priorities List ("NPL") in September 1983 by publication in the Federal Register.

4. EPA subsequently performed a Phase I and Phase II Remedial Investigation to analyze the Site groundwater, surface water, soils and sediments. That investigation revealed the presence of numerous "hazardous substances," as that term is defined in §§ 101(14) of CERCLA, 42 U.S.C. § 9601(14), at the Site.

5. In April 1992, EPA made a Proposed Plan for remedial action at the Site available for public comment. Based on comments received at public meetings, EPA proposed implementing the first phase of the remedy, or an Interim Action Operable Unit ("Interim OU"). The Record of Decision ("ROD") for this Interim OU was signed by the Regional Administrator for EPA Region V on September 30, 1992. The Interim OU called for Site fencing, provision of an alternative water supply to potentially affected Site neighbors, and groundwater monitoring.

6. EPA issued a Unilateral Administrative Order ("UAO") in December 1992 to a group of potentially responsible parties ("PRPs"), including all the Plaintiffs to this action, to perform the actions set forth in the 1992 ROD. Pursuant to the UAO, a group of PRPs, including all the Plaintiffs to this action, performed the actions set forth in the 1992 ROD.

7. EPA then issued a ROD for the second and final phase of the remedy, or Operable Unit 2 ("OU2"), on June 4, 1993.

8. On March 29, 1994, a group of PRPs, including all the Plaintiffs to this action, signed an Administrative Order on Consent for Remedial Design, in which the PRPs agreed to fund all work

necessary to prepare a complete remedial design for the Site consistent with the remedy selected for OU2.

9. Certain PRPs, including all the Plaintiffs to this action, agreed among themselves to function as an organized entity called the Skinner Landfill PRP Group for the purpose of implementing the Administrative Order on Consent for Remedial Design.

10. The Remedial Design pursuant to the OU2 ROD was completed in June of 1996.

### **JURISDICTION AND VENUE**

11. This Court has jurisdiction over the subject matter of this action and over the parties pursuant to 28 U.S.C. §§ 1331, 1367, and 2201, and §§ 107 and 113 of CERCLA, 42 U.S.C. §§ 9607(a) and 9613(b).

12. Venue is proper in this district and division pursuant to 28 U.S.C. § 1391(b) and (c), and §§ 107 and 113 of CERCLA, 42 U.S.C. §§ 9607 and 9613(b), because the releases or threatened releases of hazardous substances that give rise to these claims occurred in this district and division, because the real property which is the subject of this action is located within this district and division, and because a substantial part of the events, acts or omissions giving rise to these claims occurred within this district and division.

13. This Court has pendent jurisdiction over Plaintiffs' common law claims for equitable restitution and equitable contribution.

### **PARTIES**

14. Plaintiffs, The Dow Chemical Company, Ford Motor Company, GE Aircraft Engines, Morton International, Inc., PPG Industries, Inc. and Velsicol Chemical Corporation, are each a "person" as defined under § 101(21) of CERCLA, 42 U.S.C. § 9601(21).

15. Defendants are either individuals, corporations, or unincorporated businesses organized under the laws of the State of Ohio or the laws of a foreign state, municipal governments, or federal entities.

16. Each of the Defendants is a "person" as defined by § 101(21) of CERCLA, 42 U.S.C. § 9601(21).

17. Each of the Defendants is a person, or a successor-in-interest thereto, who arranged for the transport, disposal, or treatment of its waste, which waste was disposed of at the Site, or transported waste to the Site. Defendant Elsa Skinner is also the present owner and a former operator of the Site.

### **CLAIMS FOR RELIEF**

#### **COUNT I: CERCLA § 107 COST RECOVERY**

18. Plaintiffs incorporate herein all of the allegations set forth above as if fully restated here.

21. Upon information and belief, materials used, handled, stored and disposed of at, and/or transported to, the Site, were or contained "hazardous substances" as defined in § 101(14) of CERCLA, 42 U.S.C. § 9601(14).

22. A "release" or "threatened release" of hazardous substances from the Site has occurred and continues to occur, and at all times relevant hereto was occurring, within the meaning of § 101(22) of CERCLA, 42 U.S.C. § 9601(22).

23. Upon information and belief, each Defendant or a predecessor-in-interest thereto, disposed, arranged for disposal or treatment, transported, accepted for transport, or arranged for the transport for disposal or treatment at the Site of "hazardous substances," within the meaning of § 101(14) of CERCLA, 42 U.S.C. § 9601(14).

24. Defendant Elsa Skinner is the "owner" of the Site and "owned and operated" the Site at the time of disposal of hazardous substances there, within the meaning of § 101(20)(A) of CERCLA, 42 U.S.C. § 9601(20)(A).

25. 26. Plaintiffs' actions taken at the Site and the response costs incurred or to be incurred incident thereto, were necessary and undertaken in a manner consistent with the National Contingency Plan, which is promulgated pursuant to § 105(a) of CERCLA, 42 U.S.C. § 9605(a), and is codified at 40 C.F.R. Part 300 et seq.

27. Plaintiffs have satisfied any and all conditions precedent to the undertaking of response actions, the incurrence of response costs, and the recovery of those costs under § 107(a) of CERCLA, 42 U.S.C. § 9607(a).

28. Pursuant to § 107(a) of CERCLA, 42 U.S.C. § 9607(a), Defendants are liable, jointly and severally, to Plaintiffs for all past, present and future response costs, including costs and prejudgment interest, incurred by Plaintiffs at the Site.

## **COUNT II: CERCLA § 113 CONTRIBUTION**

29. Plaintiffs incorporate herein all of the allegations set forth above as if fully restated here.

30. Any person who has or will incur response costs may seek contribution from any other person who is liable or potentially liable under § 107(a) of CERCLA, 42 U.S.C. § 9607(a).

31. Defendants are strictly liable for response costs at the Site under § 107(a) of CERCLA, 42 U.S.C. § 9607(a).

32. Plaintiffs are entitled to contribution from Defendants under § 113(f) of CERCLA, 42 U.S.C. § 9613(f), for each Defendant's equitable share of all past and future response costs and damages incurred by Plaintiffs and for the response actions associated with the Site.

## **COUNT III: DECLARATORY RELIEF**

33. Plaintiffs incorporate herein all of the allegations set forth above as if fully restated here.

34. An actual, substantial, and justiciable controversy exists between Defendants and Plaintiffs regarding their respective rights and obligations for the response costs that have been and will be incurred in connection with the release and/or threatened release of hazardous substances at the Site.

35. Plaintiffs seek a declaratory judgment against Defendants under § 113(g)(2) of CERCLA, 42 U.S.C. § 9613(g)(2), holding Defendants jointly and severally liable for response costs incurred and to be incurred by Plaintiffs at the Site that will be binding in any subsequent action to recover further response costs or damages.

36. Pursuant to § 113(g)(2) of CERCLA, 42 U.S.C. § 9613(g)(2), and 28 U.S.C. § 2201, Plaintiffs are entitled to a declaration from this court that Defendants are liable to Plaintiffs, jointly

and severally, for all, or Defendants' equitable share of, the response costs and damages incurred or to be incurred by Plaintiffs at the Site.

#### **COUNT IV: EQUITABLE RESTITUTION**

37. Plaintiffs incorporate herein all of the averments set forth above as if fully restated here.

38. To date, Plaintiffs have incurred response costs, including but not limited to the costs of implementing the Unilateral Administrative Order and the Administrative Order on Consent for Remedial Design, and other expenses, including, but not limited to attorneys' fees, experts' fees and administrative costs, of over \$2 million.

39. By expending over \$2 million for these activities, Plaintiffs unofficially conferred a benefit upon Defendants in the amount of at least \$2 million.

40. Retention by Defendants of this benefit in excess of \$2 million would be contrary to fundamental principles of justice and equity and would unjustly enrich Defendants.

41. Plaintiffs are entitled to a judgment against Defendants for equitable restitution in the amount of each Defendant's equitable portion of the over \$2 million in incurred costs.

#### **COUNT V: EQUITABLE CONTRIBUTION**

42. Plaintiffs incorporate herein all of the averments set forth above as if fully restated here.

43. The obligation to expend at least \$2 million in costs and expenses associated with the Site, and to continue to expend money to respond to contamination at the Site is a common legal obligation owed by Plaintiffs and Defendants.

44. Defendants have failed and continue to fail to contribute their equitable portion of the costs and expenses paid and to be paid by Plaintiffs.

45. Defendants have breached their obligations with respect to the Site and are liable to Plaintiffs to pay their pro rata share of the resulting liability.

46. Consistent with fundamental principles of justice and equity, Plaintiffs have a right of contribution, arising under state common law and/or statutory law.

47. Plaintiffs are entitled to contribution from Defendants in the amount of each Defendant's equitable portion of the costs incurred and to be incurred by Plaintiffs at the Site.

### **PRAYER FOR RELIEF**

**WHEREFORE**, Plaintiffs request that this Court:

A. Enter a judgment against Defendants that Defendants are jointly and severally liable under § 107 of CERCLA, 42 U.S.C. § 9607, for all response costs and damages Plaintiffs have incurred in connection with the release and/or threatened release of hazardous substances at, onto, or from the Site in an amount according to the proof at trial, plus attorney's fees, costs, and prejudgment interest;

B. In the alternative, enter a judgment against Defendants, pursuant to § 113(f) of CERCLA, 42 U.S.C. § 9613(f), for their fair, equitable, and proportionate contribution for all response costs and damages that Plaintiffs have incurred in connection with the release and/or threatened release of hazardous substances at, onto, or from the Site in an amount according to the proof at trial, plus attorney's fees, costs, and prejudgment interest;

C. Enter a declaratory judgment that Defendants are jointly and severally liable under § 107 of CERCLA, 42 U.S.C. § 9607 and under 28 U.S.C. § 2201, for all future response costs and damages resulting from the release and/or threatened release of hazardous substances at, onto, or from the Site, including attorney's fees, costs and prejudgment interest;

D. In the alternative, enter a declaratory judgment against Defendants, pursuant to § 113(f) of CERCLA, 42 U.S.C. § 9613(f) and 28 U.S.C. § 2201, for their fair, equitable and proportionate share of all future response costs and damages resulting from the release and/or threatened release of hazardous substances at, onto, or from the Site, including attorney's fees, costs and prejudgment interest;

E. Enter a judgment that Defendants are liable for equitable restitution in the amount of each Defendant's equitable portion of the response costs incurred by Plaintiffs at the Site.

F. Enter a judgment against Defendants for their equitable portion of the costs incurred and to be incurred by Plaintiffs at the Site.

G. Enter a judgment against Defendants for Plaintiffs' costs, attorney's fees, and interest, and such other and further relief as this Court may deem just and appropriate.
